Dear Prospective Hague Water System Buyers:

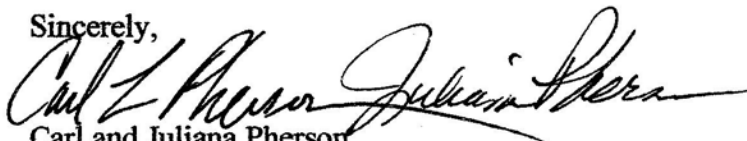

Other than the fact that Juliana and I were occasionally frustrated with scale build-up on our shower and coffee maker, we had little motivation for purchasing a water softening system or a reverse osmosis filter. In fact, we had removed an old stand-alone system from one of our previous Fresno homes and had also removed the unsightly outdoor piping to connect rental cylinders on our current Morro Bay home. The Hague display at the 2006 Morro Bay Harbor Festival caught our attention and we proceeded to engage salesman Dan in a lengthy debate about the costs/benefits of Hague vs. competitors vs. no system. Dan's home visit answered all our questions/objections. Further, we found Hague's installer to be thoroughly professional, helpful, and informative. He accommodated our desire to install the softening system in the basement and isolated from the landscape valves, which resolved the problems we had with the previous outdoor rental tank installation mentioned above.

Now that we have used the system for two months we specifically notice:

Shower cleanup is much more effective and certainly easier
Softer skin and Juliana finds less need to put lotion on her back
Hair that shines and stays less 'frizzy' after a shampoo
Suds quickly form and stay longer in the shower and dish sink
Cleaner dishes and spot-free glasses from the dishwasher
Softer, and perhaps even brighter, clothes from the laundry
Coffee maker and teakettle scale is no longer a problem
Water actually does not have any off-taste
Peace-of-mind regarding appliance and piping deterioration due to scale build-up

We are delighted and have zero regrets about our Hague purchase and would be pleased to provide further details or answers to specific questions you might have by telephone at 805 772 2376.

Sincerely,

Carl and Juliana Pherson
Morro Bay, California

Dear Richard,

Thank you for convincing us to get your Water Max System. Your company was courteous and professional from the start. The installer replaced some of the shutoff valves at the front of our house. This kind of professionalism is one of the qualities that make a company great.

We are eternally grateful for the comfort our water system brings. Our skin and hair feels softer and the shower door stays cleaner. It's nice knowing that our baby boy is clean when he gets out of the tub with no soap scum left on him. Not to mention that we no longer smell chlorine when we shower or bathe.

We would also like to thank you for your help in the purchase of our reverse osmosis system over a year ago. Our water tastes better and just knowing that we don't have to worry about things like the MTBE we've been hearing about lately, makes us feel better. We really appreciate everything you have done for us. Thank you again.

*Sincerely,
Jason and Lyndi Whetsel*

Dear Richard,

I love my water conditioning unit. My husband Dave as you know was not to keen on this purchase. He is now very pleased with the way his hair feels and its manageability. I have found that my skin care regime has been decreased due to the condition of our water. My teenage daughters use less shampoo and lotions. Their faces are clearer and their hair is looking and feeling much healthier.

We all love the skin soap that came with this purchase it foams up and creates a great lather. My skin seems softer and I use less lotion on my skin. I have noticed a dramatic decrease in the lint trap of the dryer and my clothes look great. Thank you for presenting this product to us.

*Gratefully Yours,
Tom Ricci
